

Undersink Boil & Chill Water Dispenser - PBU Series

PBU Undersink
Boiler

PBU 1/4 Hp
Chiller

Fully automatic instant
filtered boiling and chilled
water dispenser

FEATURES:

- Boiling and chilled water modules located out of sight under the sink
- Unique push-through design with expansion chamber and venturi ensures smooth and safe splatter-free delivery of boiling water with no valves, pumps or expensive electronics to service
- Sinktop Duo Dispenser Tap has been designed with the operating levers to be well above the level of the boiling water outlet, and to appear significantly different from a standard sink mixer for reasons of safety. Engraved Formica "Caution – Boiling Water" panel included
- Especially suitable for island kitchens and where there is no wall space for an oversink boiler

PRODUCT DESCRIPTION:

- Solid 1.5 Kg fully vented chrome plated brass Duo Dispenser Tap - built to last with smooth and positive ceramic lever operation. Boiling and chilled water lines are separately positioned within the spout
- Included is a PB WP30 PowerBoil Duo Boil/Chill Sinktop Tap (pictured above)

OPTIONS AVAILABLE:

- Remote controlled boiling water safety cut-off system
- 10" Water Filter (10 micron EP 10 Carbon Block cartridge or 0.5 micron SCBS-10 Silver impregnated Carbon Block cartridge, please specify)
- Save electricity overnight with the D809 Heavy Duty Power Timer (3 pin plug only)

SPECIFY AS: Powerboil (followed by product code)
